Well, we finally made it!
Can you believe it?
It seems like only yesterday we started.
Each of us had so far to go.
The preschool doors used to seem so big
We were afraid we'd never make it through.
But we did.
We survived elementary school.
Made it through sixth grade.
And even breezed through middle school.
And now look at us.
We're ready to make that last big step.
Heads held high.
Looking straight ahead.
We're on our way.
But wait!
Where are we going?
It seems like we just got here.
And now we have to leave.
Are we just finishing or simply beginning?
It seems like everytime we open a door we have to shut one.
Closing doors makes me feel like I'm leaving something behind.
Or someone.
Or everyone.
But that's okay, the time is finally here.
The time we've been waiting eighteen years for.
It's time to say goodbye.
Goodbye to Mom and Dad.
See ya later to all our friends.
And even farewell to good-old BHS
So, Class of 98,
Make your mark
Set your goals
And always reach for your dreams.
Because even if you fall short,
you'll still be
AMONG THE STARS . . .

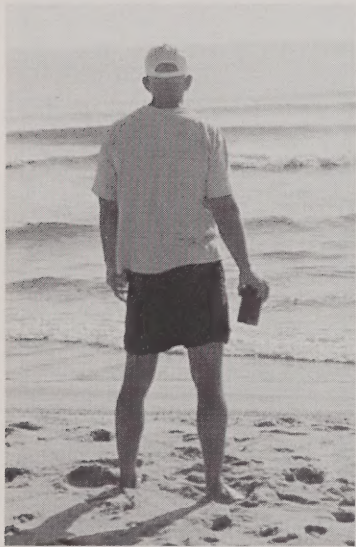

Dean Campbell

Mmm mmm good

How do we say goodbye to a man
who's done so much for us these past four years?
Putting in endless full days
to support us through all the laughs and tears.

How do we say thank you to a man
who's done so much for the class of '98?
Organizing homeroom meetings and activities —
everything's been so great.

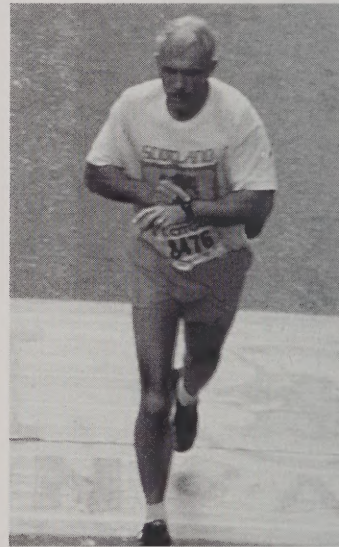

How do we show a man we appreciate him
for all he's helped us do?
Winning Spirit Week, organizing car washes,
Power Puff and Homecoming, too.

How do we show a man he's special
and that he's affected us in many ways?
Always understanding, caring and helpful
through the never-ending high school days.

How do we tell a man we're proud of him
for watching us till the end?
Surviving his first senior class,
completing the journey as a friend.

How do we tell a man we're finally ready
to be "soup-er stars"?
Ready to make that last step-
with him, we've come so far.

Thank you
for putting
up with us,
Dean Campbell.
We love you!

Home, sweet home . . . future

Remember
when life
used to be
so simple?

Lunches were longer
Homework was shorter
Relationships were easier. . .

Oh yes, those were

Suddenly we are now
the SENIORS, and who
would have thought it
could happen so fast?

Now we are older, stronger,
maybe even smarter,
with the wide open world
at our feet.

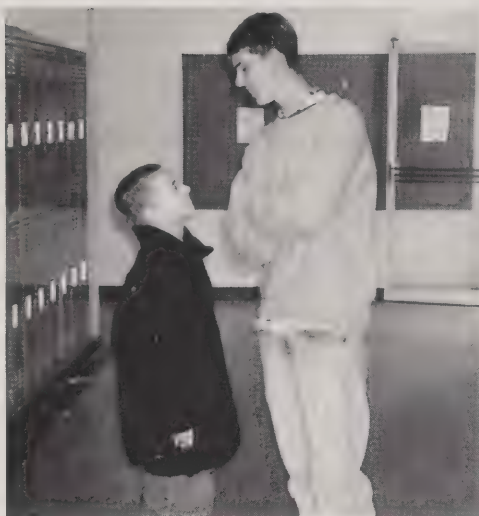

We are the ones with our
futures ahead of us, waiting
to make that last big step.

When we were back in
Elementary School;
carefree as the wind.

And then we grew

The years passed
us by so quickly.

I O R S

Ready to begin our journey,
but not quite ready to let go
of our past.

For our past is filled with
the memories that will
last a lifetime.

These next few
pages are filled
with us, our friends,
and the people we've
met along the way --
the people we will
never forget.

As we walk down the halls and let out a cry
All of our friends are saying goodbye.

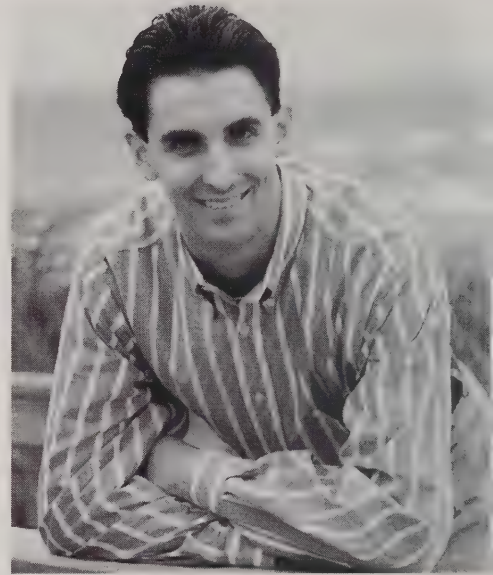

The memories we've made here will forever last
Even though our days at BHS are now in the past.

Many people believed in us and really cared
Hours were spent with us and experiences shared.

As we walk down the halls on this last day
To all of the faculty and all our friends, we say

We'll miss you all so very much
We promise always to keep in touch.

"Freedom is the very nature of being; whatever stands against that freedom must be set aside, be it ritual or superstition or limitation in any form." Richard Bach, Jonathan Livingston Seagull

My time at BHS has been a whirlwind of challenge, emotion and self-discovery. The lessons I've learned from my teachers, friends and classmates will be carried within me for the rest of my life. Mom and Dad, you have been my greatest supporters in all of my varied endeavors. In school, at work and at home, you have been the pillars of compassion and love that I've turned to in my moments of confusion. You were always there. Thank you. Justin, well, what can you say about a little brother? They're annoying, nagging and sloppy? Sometimes yes, but I wouldn't have it any other way; you have been a friend I can talk to easily and openly. I couldn't ask for a greater brother. C.G. — Your friendship has meant more to me than you can ever know. You were really my first true friend. Merci. P.K. — Your amazing capacity for laughter and fun has taught me to truly appreciate the importance of a good laugh. A.H. — You have taught me the importance of living life to its fullest, experimenting with new ideas and building up the courage to ask the difficult question. Thanks, K.H. — There was never a boring word from your lips. From you I have learned, hopefully, how to loosen-up. I think I'm better than I was, am I?

FOOTPRINTS — author unknown

One night a man had a dream. He dreamed he was walking along the beach with the Lord. Across the sky flashed scenes from his life. Each scene, he noticed two sets of footprints in the sand: one belonging to him, and the other to the Lord.

When the last scene of his life flashed before him, he looked back at the footprints in the sand. He noticed that many times along the path of his life there was only one set of footprints. He also noticed that it happened at the very lowest and saddest times in his life.

This really bothered him and he questioned the Lord about it. "Lord, you said that once I decided to follow you, you'd walk with me all the way. But I have noticed that during the most troublesome times in my life, there is only one set of footprints. I don't understand why when I needed you most you would leave me."

The Lord replied, "My precious, precious child, I love you and I would never leave you. During your times of trial and suffering, when you see only one set of footprints, it was then that I carried you."

I do not want my house to be walled in on sides or my windows to be stuffed. I want the cultures of all lands to be blown about my house as freely as possible. But I refuse to be blown off my feet by any.

I am an exchange student from Japan. I love my American Dad, Mom and this country. I have a dream of becoming a world traveler. My interest lies in the future because I am going to spend the rest of my life there. I am thankful to my Japanese family for giving me such a great chance.

First I'd like to thank God and my parents, also my brother and sister for helping me with a very important accomplishment in my life. It feels great to finish high school. Now I want to make my parents proud by being the first in the family to go on to college and graduate.

My four years at Barnstable High School have been one of the most rewarding experiences of my life. I now can laugh when I remember how nervous and lost I felt as a freshman coming into this school. I would like to thank all of the teachers I have had, my friends, and my family for assisting and guiding me through my senior year. In the near future I plan to attend a university in which I can major in the fields of architecture and civil engineering, and I will eventually pursue a career in those areas. I can only hope that the next part of my life will be as much fun as my four years at this school.

GOODBYE MY FRIEND

*Oh, we never know where life will take us
I know it's just a ride on the wheel
And we never know when death will shake us
And we wonder how it will feel*

*So, goodbye my friend
I know I'll never see you again
But the time together through all the years
Will take away these tears
It's okay now
Goodbye My Friend*

*Life's so fragile and love's so pure
We can't hold on but we try
We watch how quickly it disappears
And we never know why*

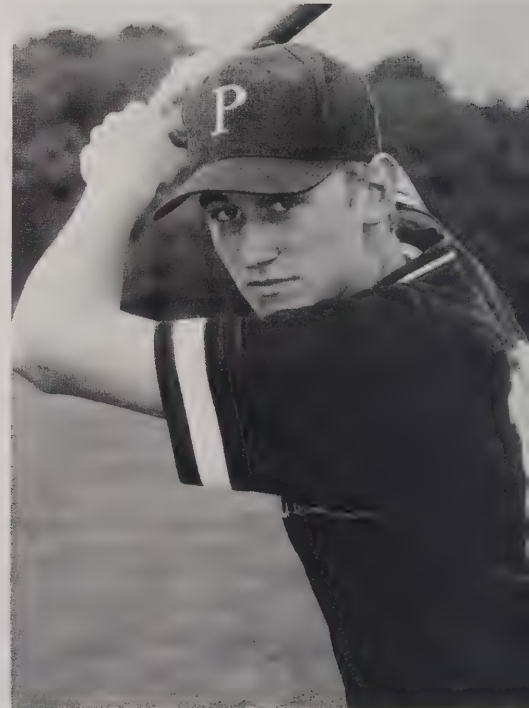

*So, goodbye my friend
I know I'll never see you again
But the love you gave me through all the years
Will take away these tears
But I'm okay now
Goodbye My Friend*

*You can go now
Goodbye My Friend*

Congratulations! From The BHS Field Hockey Boosters Club

"There was never any doubt that this little girl was destined to be a star athlete. Just look at the concentration as she makes sure that her grip on the ball is perfect. Any coach could have seen her potential as a great "setter" just by looking at the strength in her hands. This youngster was well aware that she had extremely large feet. Instead of being embarrassed, she took great pride in knowing that once she grew into them she would be tall enough to be a Champion Volleyball Player." ...Nanny

CLASS OF '98

THANK YOU MY SON

David- how do I begin to thank you my son for the many days
you have filled my heart with so much joy
with your thoughtful and loving ways
I've watched you grow from such a small child
it seems like overnight
into an outstanding man, student and athlete
with such magnificent insight
Oh how I'll miss sitting to watch my catcher
on the dusty baseball fields
but most of all I'll miss those cold exciting nights
watching you play so hard on the Red Raiders football field
I'm sovery proud of your many fine qualities
you have displayed throughout the years
loyalty, respect, honor and kindness
your many achievements have brought me to tears
From the time you were only ten
you had decided your dream for the future
and not once along the way have you ever changed your mind
that incredibly strong passion to become a state trooper
whatever aspect you choose in law enforcement
the agency will surely be blessed
for to choose such a fine young man to represent them
they will have hired the very best
and now to imagine my days and nights without you
as you leave for college to spread your wings and fly
brings to my heart such emptiness and sadness
although I'm really not quite sure why
after all my son together in heart and soul and love we will always be
and I thank you my son and God above for sending your love to me

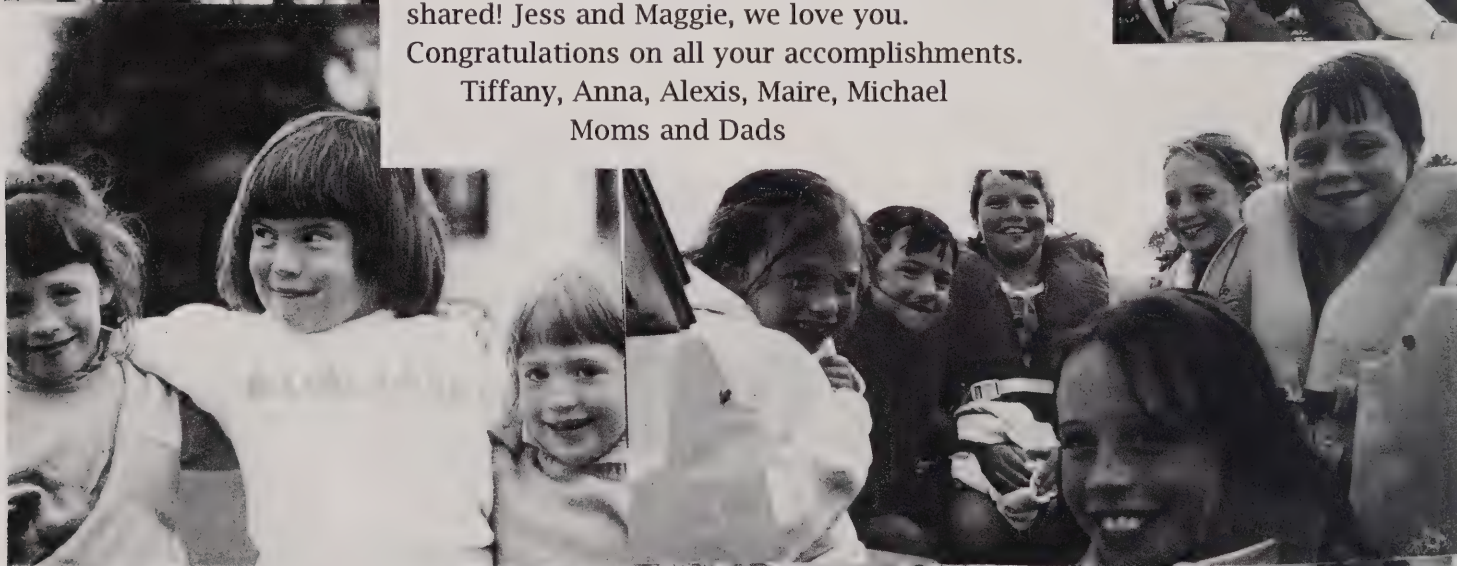

I LOVE YOU
MAMA

We Had a Little Girl

We had a little girl so many years ago
who smiled and laughed her way
into our world.

We had a little girl who wore strange
things on her head and made us giggle
when she ate.

We had a little girl who dressed in white
and whirled and spun and danced
across the stage.

We had a little girl who was so sure
that what she wore and how she looked
was so cool.

We had a little girl who flew away
to France, who caught an accent
and left her hair.

We had a little girl who had music
in her heart, who sang and played
with pride.

We had a little girl so many years ago
who now is a young woman and we
must let go.

Yearbook Staff busy working — as usual!?

Friends Through the Years . . . As we have grown and changed so have our ideas on friendship . . .

In kindergarten your idea of a good friend was the person who let you have the red crayon when all that was left was the ugly brown one.

In first grade your idea of a good friend was the person who went to the bathroom with you and held your hand as you walked through the scary halls.

In second grade your idea of a good friend was the person who helped you stand up to the class bully when he tried to steal your lunch money.

In third grade your idea of a good friend was the person who shared her lunch with you when you forgot yours on the bus.

In fourth grade your idea of a good friend was the person who was willing to switch square dancing partners in gym so you wouldn't have to be stuck do-di-do-ing with nasty nicky or smelly susan.

In fifth grade your idea of a good friend was the person who saved a seat on the back of the bus for you.

In sixth grade your idea of a good friend was the person who went up to your new crush at the Teen Center and asked him to dance with you, so that if he said no you wouldn't have to be embarrassed.

In seventh grade your idea of a good friend was the person who let you copy the Social Studies homework from the night before that you had forgotten.

In eighth grade your idea of a good friend was the person who dragged you to the cruise even though you didn't have a date.

In ninth grade your idea of a good friend was the person who went with you to that "cool" party thrown by a senior so you wouldn't be the only freshman there.

In tenth grade your idea of a good friend was the person who picked the same schedule as you so you would be in at least one of the same classes.

In eleventh grade your idea of a good friend was the person who gave you rides in her new car, convinced your parents that you shouldn't have a curfew and that you shouldn't be grounded, consoled you when you broke up with your boyfriend or girlfriend, and found you a date to Homecoming.

In twelfth grade your idea of a good friend was the person who helped you pick out a college and assured you that you would get in, helped you deal with your parents who were having a hard time adjusting to the idea of letting you go . . .

At graduation your idea of a good friend was the person who was crying on the inside but managed the biggest smile as you congratulated each other.

This good friend will help you pack up for college and just silently hug you as you look through blurry eyes at 18 years of memories you are leaving behind, and finally on these last days of childhood, go out of his way to come over and send you off with a hug, a lot of memories, reassurance that you will make it in college as well as you have these past 18 years!

And, most importantly, will send you off to college knowing you are loved.

Take these stars and mark your good friends, whether they're from kindergarten or just last week. Just like these stars, your memories together will shine as you always hold a special place for them in your heart!
